

# Action Items

---

As a result of the comments, concerns and suggestions expressed by citizens who attended the meeting at Woolridge Elementary School on July 27, 2012, Matoaca District Supervisor Steve Elswick has asked staff to do the following:

1. Obtain updated traffic counts along Otterdale and Woolridge Road.
2. Develop detailed traffic projections for Otterdale and Woolridge Road, based on the updated traffic counts.
3. Work with VDOT to re-evaluate the traffic signal warrants at all the major intersections along Woolridge Road, using updated traffic counts.
4. Verify that crossovers are located appropriately based on updated traffic counts and VDOT standards.
5. Suspend right-of-way negotiations with any properties southwest of Timber Bluff Parkway.
6. Evaluate the feasibility and impact of recommendations made by the community.
7. Provide funding options for the installation of bicycle and pedestrian facilities.
8. Identify options to minimize the impacts to buffers in key locations.
9. Request input/information from the Richmond Association of Realtors regarding the impact of widening Woolridge Road on property values.
